INCORPORATED CITIES IN LOS ANGELES COUNTY AND THEIR ASSOCIATED SERVICE PLANNING AREAS

If your organization has already determined a region for your health fair, you may use the following chart to learn which service planning area your region falls within. Once you identify the service planning area specific to your location, you may use other resources in this guide to help you understand the characteristics and health needs of the people that your organization may serve at your health fair or health outreach event. If a particular city is not listed in this chart, it may be an unincorporated city. To see a list of unincorporated cities and the agency that plans it's programs and city services, please refer to the Los Angeles county website at: **http://www.lacounty.info/counicrp.htm**
